

Suraj Shivaji Mane

Pune, Maharashtra, India | +91-8485877230 | surajmane4.tech@gmail.com | linkedin.com/in/suraj-shivaji-mane

Profile Summary

Motivated and detail-oriented **Software Engineer / Java Backend Developer** with a solid foundation in **Data Structures, Algorithms (DSA)**, and **Object-Oriented Programming (OOP)**. Hands-on experience developing scalable backend systems, secure microservices, and **RESTful APIs** using **Java, Spring Boot, Spring Data JPA, and MySQL**, complemented by modern UI development in **React.js**. Well-versed in the complete **SDLC, Agile methodologies**, unit testing (**JUnit**), and relational database optimization. Recognized as an **NPTEL Top 5% Performer in Java**, eager to contribute to robust, high-performance enterprise applications.

Technical Skills

Programming Languages: Java (Java 8/11/17 – OOP, Collections, Multithreading, Streams API, Exception Handling), SQL, JavaScript (ES6+)

Backend & Frameworks: Spring Boot, RESTful APIs, Spring MVC, Spring Data JPA, Hibernate, JDBC, Servlets, Microservices Basics

Frontend & Web: React.js, HTML5, CSS3, JSON, Axios, Responsive Web Design

Databases & Systems: MySQL (Relational Schema Design, Normalization, Query Optimization, Indexing)

Tools & Methodologies: Git, GitHub, Postman, Maven, Eclipse, VS Code, SDLC, Agile/Scrum, Unit Testing (JUnit)

Key Projects

Digital Customer Onboarding Platform *Java, Spring Boot, React.js, MySQL, REST APIs, Postman*
Full-Stack Customer Registration & Workflow Automation System *Jan 2025 – Present*

- Architected an onboarding portal following **SDLC and Agile principles**, automating verification workflows and reducing turnaround time by **35%**.
- Engineered 15+ secure **RESTful APIs** in Spring Boot using DTO patterns, input validation, and centralized exception handling for high system reliability.
- Implemented authentication and **Role-Based Access Control (RBAC)** using Spring Security and **JWT**, protecting sensitive customer endpoints.
- Designed normalized **MySQL (3NF)** schemas with indexing to cut query latency by **30%**; conducted rigorous API validation via **Postman**.

Online Examination & Assessment System *Core Java, Servlets, JDBC, MySQL, HTML/CSS*
High-Reliability Academic Testing and Evaluation Platform *Jul 2024 – Dec 2024*

- Developed a scalable examination platform supporting concurrent test sessions, automated timers, and **real-time score evaluation** with zero data loss.
- Structured backend architecture using **MVC principles** and transactional **JDBC**, utilizing parameterized queries to eliminate SQL injection risks.
- Built role-based modules for students and administrators to manage dynamic question banks and publish instant analytical scorecards.
- Conducted unit testing with **JUnit** and edge-case debugging, achieving **99%+ crash-free test submissions** under concurrent user load.

Education

JSPM University, Pune *Pune, India*
Bachelor of Technology (B.Tech) in Computer Science and Engineering **CGPA: 8.5 / 10.0** (Aug 2023 – Jun 2026)

Government Polytechnic, Solapur *Solapur, India*
Diploma in Computer Technology **Score: 76.0%** (Aug 2020 – Jun 2023)

Saraswati Vidyalaya, Latur *Latur, India*
Secondary School Certificate (SSC) **Score: 92.20%** (Completed: Mar 2020)

Certifications & Achievements

- NPTEL – Programming in Java:** Certified Elite with **Top 5% Performer** ranking nationwide.
- NPTEL – Human Computer Interaction (HCI):** Certified in user-centered design, usability heuristics, and interface evaluation.
- Java Full Stack Development Virtual Internship:** Enterprise application training in Spring Boot, REST APIs, MySQL, and React (EduSkills/AICTE).
- Problem Solving & DSA:** Active problem solver practicing core algorithms across Arrays, Linked Lists, Trees, and Sorting.
